

**TATHVA '22**

**OCT 21, 22, 23**

# About Us

A group of tech driven students started a fiesta in the beginning of a new century and called it Tathva which translates to “principle”. Its debut in the year 2000 gave the youth an enormous platform to showcase technical creativity and acquire cutting-edge knowledge. With more than two decades of growth, this conference went on to become South India's largest techno-management festival, garnering nationwide attention.

Tathva's motto is to combine technology, innovation, and fun to create an experience unlike any other. It hosts a multitude of events, ranging from insightful workshops, enlightening lectures, and competitions lined up and judged by experts to pro nights - a musical extravaganza, crowd-pulling games, and much more to make the fest even more fun.

**After a strenuous wait of 2 years, Tathva is back to uphold its legacy.**

# ROBOWARS

Tathva'22 presents you South India's largest Robot combat contest in one of Asia's largest arenas. Attracting crowds and science enthusiasts from various parts of the world, Robowar is undoubtedly Tathva's magnum opus! This is the place where you get to showcase your tech and gaming prowess, all on one stage. Contestants manoeuvre robots to attack and immobilize the other using weapons and other mechanical contraptions for the prize of whopping 6 lakhs. For the first time in Tathva's Robowar, you get to go all out with greater freedom in mobility and weapon use. Robowar has been attracting a myriad of contestants ranging from International and National level tech teams to college students along with quite the audience and will continue to do so only ever scaling to reach new heights with each passing year.

# PRONITE

The best party in town.

Shimmering lights and reverberating rhythms; they add to the glee and glory of the nights of the technical extravaganza that is Tathva. A year down, the stage has been set for the renowned voices of the industry. Being the nights that enthrall the crowd, Prowshows steal the limelight throughout the three days. It is one show that should not be missed.

# WHEELS

grace, pace and glamour

Float like a Cadillac, Sting like a Beemer. Drive not to save time, drive to have a good time. Witness one of the biggest gathering of automobile enthusiasts from south India display a breathtaking range of customized exotic rides in WHEELS!

# LECTURES

Being the key attraction of the Tathva, lectures help you unfold the mysteries of science. Lend your ears to listen and be a part of it. In Tathva lectures, we deal with a wide array of relevant topics hosted by renowned experts. These lectures not only guarantee you a bunch of knowledge but also ensures you an access to a vast number of ardent young individuals.

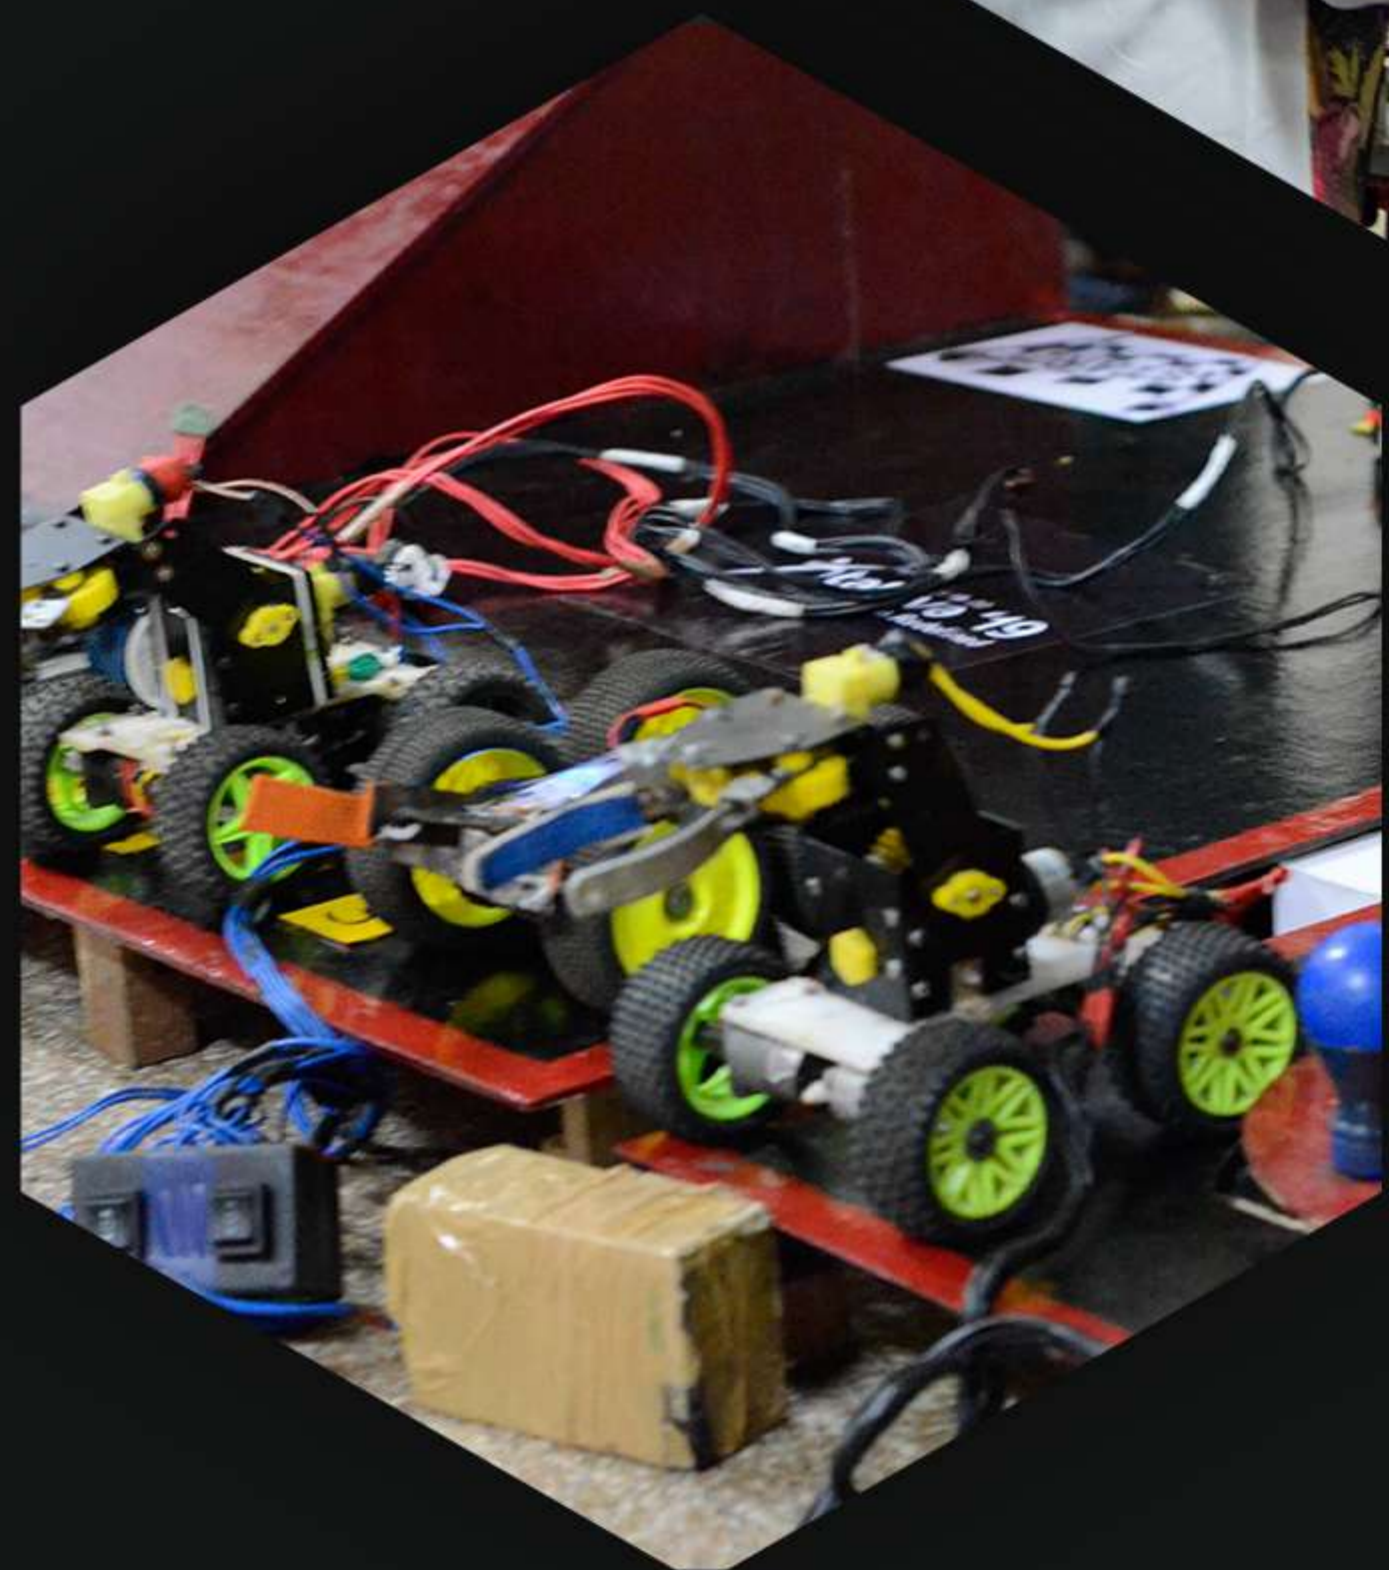

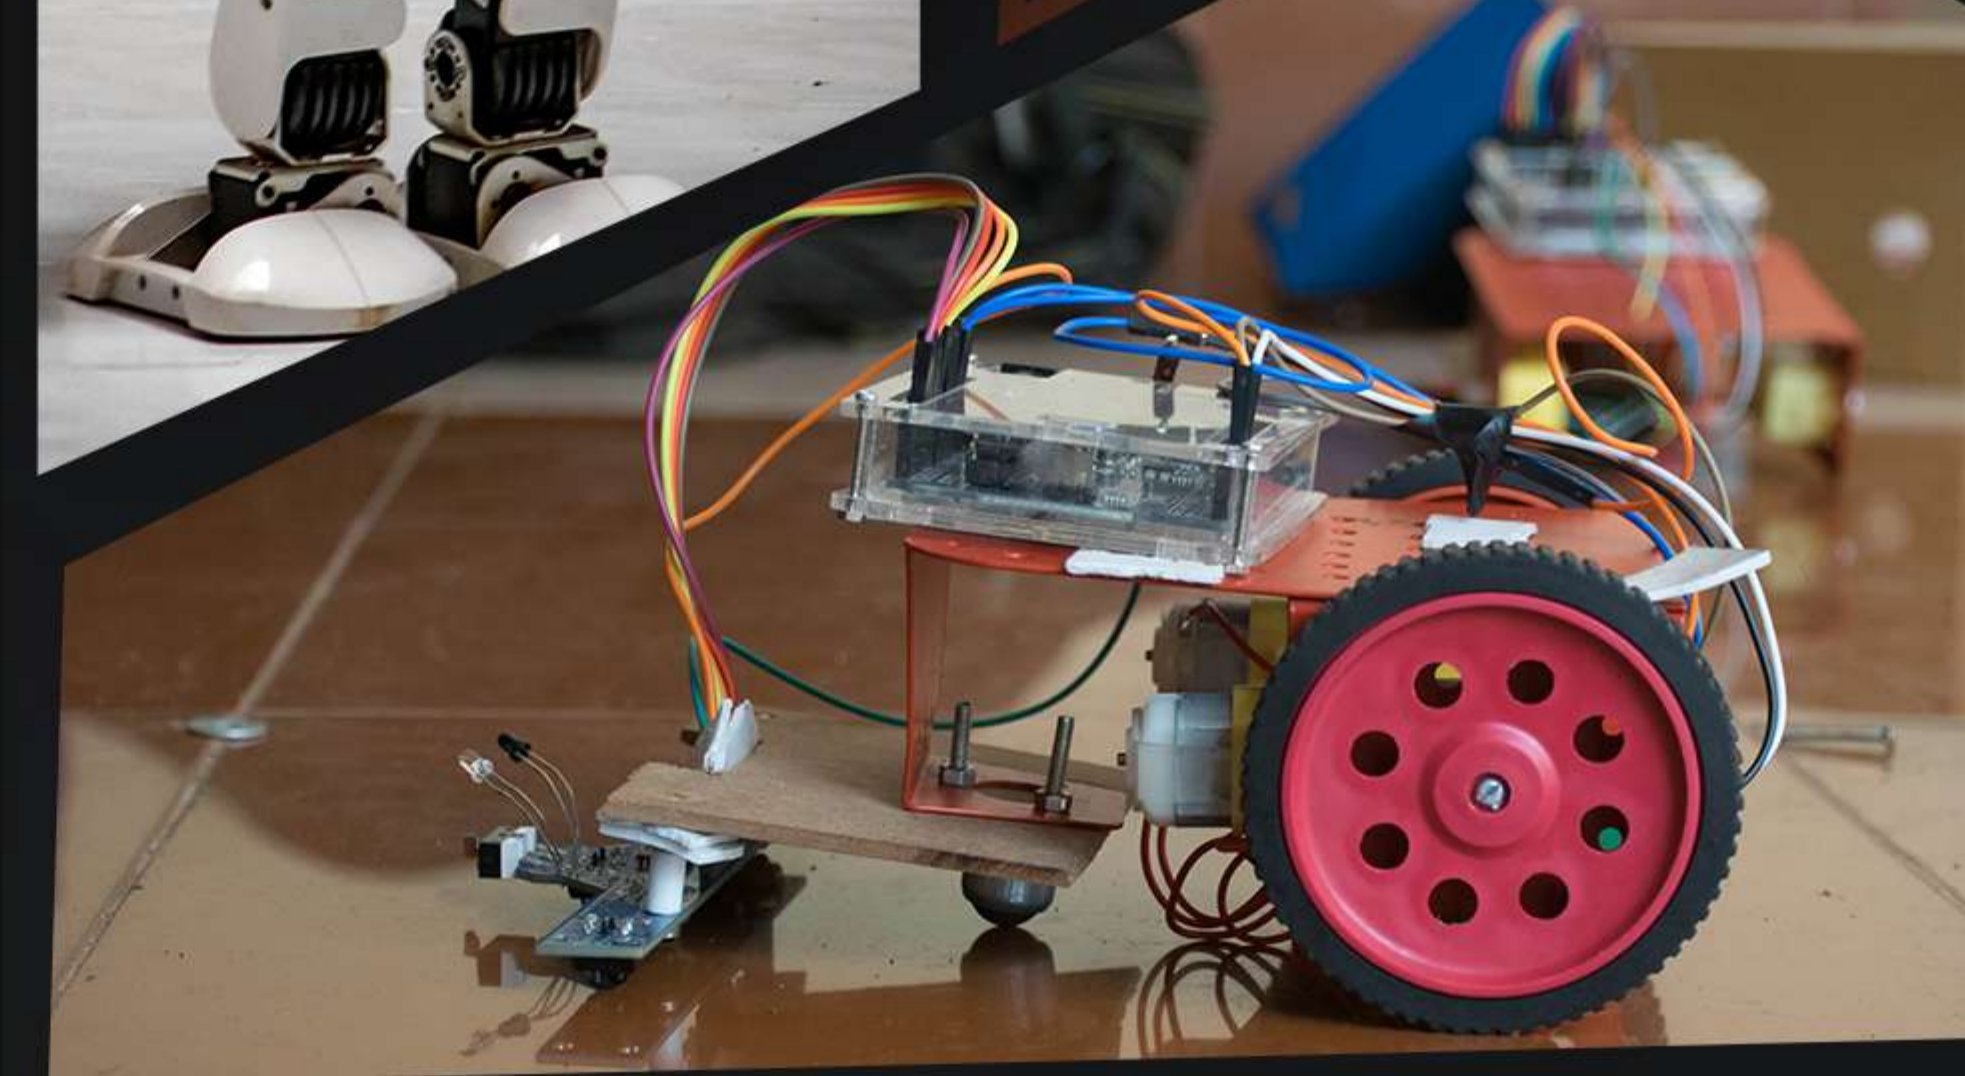

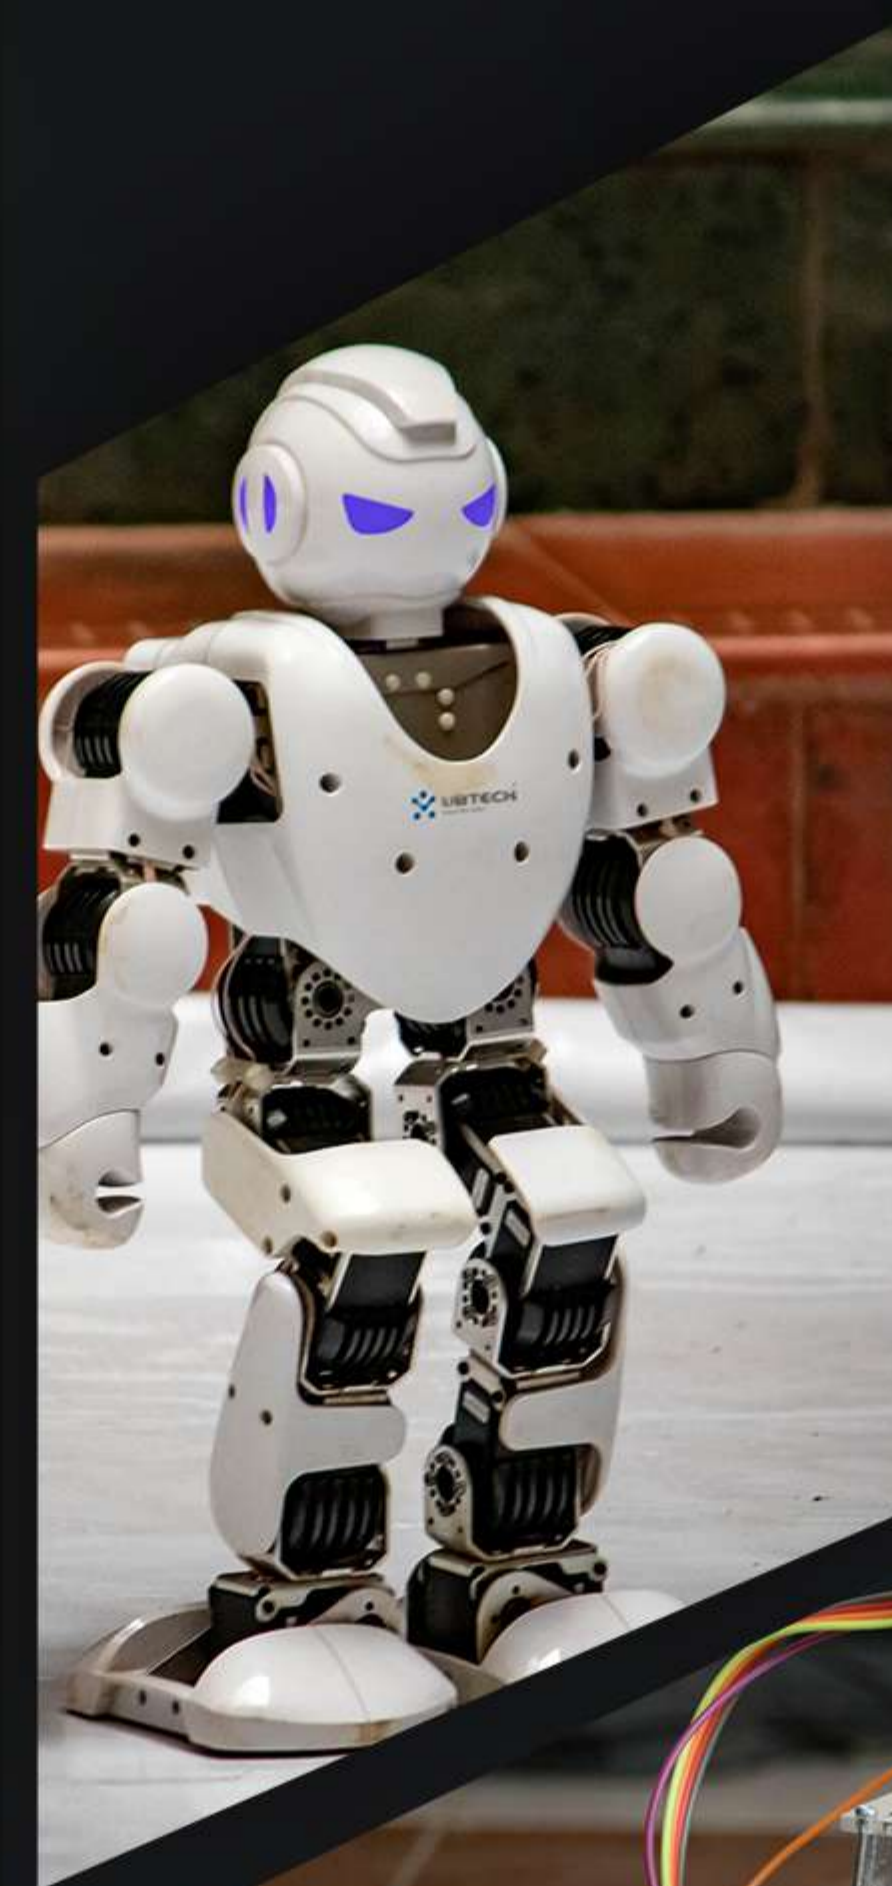

In order to nurture and help transform revolutionary ideas to reality, Tathva Interface is NITC'S very own committee that aims to sharpen the entrepreneurial quotient of young minds . This year, we want to expand this committee to a much larger scale with more events and initiatives such as Tech Start-up Expo and various pitching Events. These events focus on promoting the flair for business and management among the students belonging to institutes across the nation.ng a myriad of contestants ranging from International and National level tech teams to college students along with quite the audience and will continue to do so only ever scaling to reach new heights with each passing year.

# WORKSHOPS

In this era of artificial intelligence, the best begins from the floors of Tathva workshops. Tathva workshop has always welcomed us with countless eminent scientists and Nobel laureates. Interactive sessions with the pioneers nurture the inquisitive minds of young science enthusiasts and give them the much need insight into the world of technology. Workshops are truly the backbone of Tathva'22.

# SAMASYA

Tathva 22 presents, Samasya an inter school Quiz competition conducted by The Enquire Quiz Club, NitC for students belonging to classes 8-12. Samasya has been a staple of Tathva for many years and has always held a special place in the hearts of budding quizzers. We attempt to unearth the best quizzing diamonds from all across the state. Teams that conquer various screening rounds will face off in an eventual mega showdown at Calicut!

# GAMING EVENTS

NITC's maiden gaming venture presents to you a myriad of tournaments conducted for the exuberant gamers and gaming enthusiasts out there. We intend to provide a clear cut idea of the possibilities in e-sports through state of the art events that can be broadcasted on an international level. These events are conducted with an aspiration to spark a revolution in offline and online gaming events, especially in South India.
